Peachtree QUANTUM

The Ultimate, High-Performance Peachtree Accounting Solution

Has your business evolved to a point where your current software doesn't meet your needs? Do you require a solution that ties all your business functions together so your team will operate as one? Or do you simply require more users and better performance at a cost-effective price? If yes, then Peachtree by Sage – Quantum 2010 may be your solution.

Meeting the Changing Needs of Your Business

Peachtree offers you Accuracy, Control, and Results, plus the analysis tools you need to make better decisions. With tools such as:

Internal Accounting Review[1]

Run up to 15 checks on your data at any time, to find potential mistakes.

Audit Trails

Record changes to transactions and track each entry by user to deter fraud.

Analysis Tools

Keep up-to-date on your financial health with the Cash Flow Manager.

Analyze your business performance or see how you compare to similar companies in your industry with Peachtree Business Analytics[2].

The Cost-Effective Solution

With Peachtree Quantum, you will experience a new level of accounting and business management...all at a cost you can afford! In addition to the accuracy, control, and results you need, Peachtree Quantum offers more with access to:

- Industry-specific product capabilities for Manufacturing, Construction, Distribution, and Nonprofits

Centralize Your Business Operations

In today's environment you might be looking for more out of your accounting solution—more efficiency and the ability to streamline more of your business functions into one collaborative solution—for less money than comparable solutions. Peachtree Quantum 2010 offers new features to help you change the way you currently run your business, such as:

NEW! Dashboards

My Dashboard: Now every user can create their own personalized dashboard to help them get organized and focus on what matters most.

Customer Management Center: Save time by viewing the details you need all in one place to better manage and serve your customers without missing a beat.

Order Process Workflow

Track of all the moving parts of your order process so nothing gets missed and everything moves along as planned. Also, notify the next person in the process, with a status and specific notes as needed.

One centralized place to keep track of all process statuses, or just your own tasks.

Multi-User Management

All the tools you would expect in a multi-user system, such as:

- Access to a 10, 15, 20, 30, or **NEW!** for 2010 - 40 licensed, named user solution[3]
- Strong role-based security
- Optimized database capacity[4]
- Send notifications to other users that they need to log out of Peachtree, or if necessary, manually log them out

Peachtree Business Care Plan[5] Included with Peachtree Quantum

One year of unlimited[6] access to our highest level of Support Specialists via phone and e-mail

All product updates and upgrades that are released within 12 months of your purchase date

24/7 access to the Peachtree Knowledge Center, our online resource center for helpful tips and tricks

Access to online training sessions
