Select a Compatible Check or Form Layout

Find the check or form that will meet your needs using this catalog. Our forms are guaranteed to be compatible with your software.*

Choose Laser or Continuous Format

Choose laser format for laser or inkjet printers. Continuous format is available for dot-matrix or tractor-fed printers. Your Peachtree software supports both laser and continuous formats.

Choose Style, Parts and Color

Choose the style, parts, and check color (if applicable) to meet your business needs. Free samples are available—please call (516) 338-9500 ext 147

Satisfaction Guaranteed

If for any reason you are not completely satisfied with your order, return your purchase within 30 days of receipt for a full credit or refund, **100%** including shipping and handling.

Add Business Accessories

Order compatible envelopes and pre-inked stamps to save time. Imprinted deposit tickets are also available.

Other Decisions About Your Checks & Forms Order

How many checks?

What will the starting number be?

Do you want your personalization in an upgraded style?

Do you need your laser checks reverse numbered?

Do you want to print a logo on your checks?

Do you want one or two signature lines?

All the Peachtree business checks in this catalog already comply with Check 21 legislation.

Are you ready for Check 21?

The "Check Clearing for the 21st Century Act," enacted by the U.S. Congress, essentially allows banks to send electronic images of your checks through the clearing system instead of the actual physical check. Sage checks meet and exceed ANSI X9 specifications as required by the new legislation. To learn more about how Check 21 affects you and your organization, visit www.sagenorthamerica.com/checks

TakeCharge! and Nolo Business Tools

Education—Brush Up on Business Basics

Crash Course—TakeCharge! Accounting Tutorial

This self-paced program is designed for the non-accountant who needs to understand the basics of accounting terms and procedures. In this guided tour, you'll receive an introduction to financial statements and learn about the accounting equation of debits and credits. You'll be given detailed instruction about the chart of accounts and period-end processing. Finally, you will acquire invaluable tips on how to review your financial statements so that you can catch common errors before they reach the next level.

The TakeCharge! tutorial gives practical examples taken from real-world experiences. Interactive activities throughout the program help to confirm your understanding. Reference materials and documents are also included in the program so you can create, customize, and print your own accounting manual.

Also in the tutorial you will find other helpful sections, including:

- Examples and descriptions of accounts
- Common questions and answers
- A comprehensive glossary

IRS-Approved Tax Forms

Users on Release v10.x

The latest release of Sage MIP Fund Accounting includes the “Tax Forms and eFiling by Aatrix®” functionality for Payroll and 1099 tax forms. This feature eliminates the need for **some or all** pre-printed forms—allowing you to eFile or print your tax forms on plain paper instead.

If you do choose to print any forms please note, **IRS regulations require that employee copies of Form W-2 (Copies B, C, and 2) and Form 1099 (Except Copy A) be printed on perforated paper.** Additionally, filing instructions must be given to each employee (IRS Publication 1141 Sec. 2.05 & 2.19 and IRS Publication 1179 Sec. 4.4.3). Sage Checks & Forms offer these plain paper forms in the required perforated format.

We've printed the filing instructions on the back to save you time and money!

W-2 Forms

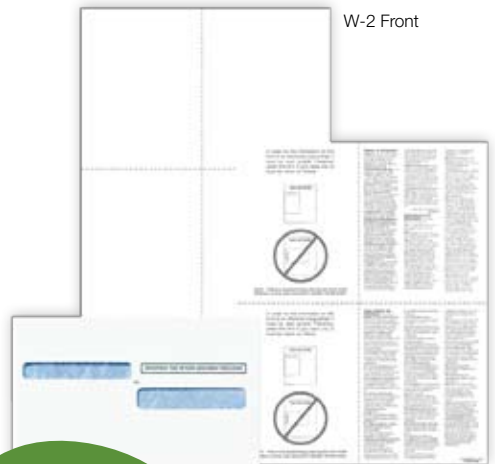

- IRS-Required Plain Perforated Paper
- Laser W-2 for use with Laser or Inkjet printers.
- Each 8 1/2" x 11" sheet is perforated according to IRS regulations
- Fully compliant with IRS Publication 1141
- Employee filing instructions already printed on the back to save you time and money
- Form only option also available upon request.
- Free W-3 Transmittal form with every W-2 order.

1099 Forms

- MISC, DIV, INT, and R
- Fully compliant with IRS Publication 1179
- For use with Laser or Inkjet printers
- One free 1096 Transmittal form with every 1099 order
- Compatible regular or self-seal envelopes available

Don't Forget!
“Buy by the Bundle”
They include tax forms and matching self-seal window envelopes— all at a discount

Reverse Numbering

If your laser printer loads from the front instead of the top, you may need us to reverse number your single sheet checks. Here's an easy test: mark a sheet of paper on one side, load the sheet into your printer with the marked side up, and print. If what you printed is on the reverse of the marked side, you'll want to write "yes" in the "Reverse Number" box on your order form.

Remember!

When you change banks or your bank is assimilated in a merger, your account information will change. Be sure to provide us with your new account number and enclose a sample voided check with changes indicated on the face of the check.
